**TOTAL - ASSETS** 

- The Company, inter-alia, manufactures Sugar which is produced during the season and sold throughout the period As such the performance in any quarter may not be representative of the annual performance of the Company.
- The Company over the last few years has been incurring cash losses due to which its net worth has been eroded and its current liabilities are in excess of its current assets. The Indian sugar industry, particularly in the State of Uttar Pradesh, has faced difficulties on account of increasing sugar cane prices and corresponding lower than expected recovery of sugar from cane, lower sugar prices and consequential under recovery of cost of production. These factors have adversely affected the Company's operations and financial performance. Higher finance costs have also added to the cash losses

The Company got registered with the Board for Industrial and Financial Reconstruction (BIFR) on 10th September 2013 under the provisions of Section 15 (1) of the Sick Industrial Companies (Special Provisions), Act, 1985 (SICA). The State and Central Government have initiated various steps to support the sugar industry like decontrol of free sale of sugar release mechanism, doing away with levy quota system, subsidy of Rs 28.60 per qtl on sugar cane purchase during the sugar season 2014-15 and also considering linking the sugar cane price with sugar price. All the aforesaid measures are expected to support the industry and also the operations of the Company in the near future. The Company has also initiated various steps including cane development activities, enhancing plant efficiencies, costs reduction etc. to improve the performance of the Company.

As such, the Company is confident that BIFR will approve a rehabilitation scheme which would entail part sale of its surplus/non-core assets to discharge some of its financial obligations and improve cash flow, reschedulement of the outstanding debt/payables (including overdue debt/payables), and other requisite financial restructuring in consultation with various stakeholders to improve its financial position including net worth.

During the current period, the industry has witnessed a steady increase in sugar prices and improved cane recoveries. This has resulted in the Company generating profits including cash profits during the period. The industry outlook is also positive in the short and long term with sugar prices expected to hold.

Pursuant to the assignment of all rights, titles and interests in the financial assistance granted by two term lenders to the Company with an asset reconstruction company, a major portion of the outstanding debts has been restructured for repayment, and the Company is in the process of negotiation with the remaining lenders. Further, the business restructuring plan as mentioned in the rehabilitation scheme is being pursued by the Company.

In view of the above, the Board of Directors of the Company is confident that the Company would be in a position to realize its assets and discharge its liabilities by successfully implementing the rehabilitation scheme and in the normal course of its business.
